Post Graduate Diploma in Management

PGDM

offering Dual Specialisation

Idea to Execution...

A Journey Towards
Excellence

ABOUT US

GNIOT Institute of Management Studies (GIMS), Greater Noida, is strategically established in the city of the future—Greater Noida—with a vision to emerge as a renowned management school. It is committed to advancing management education and research focused on (a) developing business leaders who address social challenges and (b) establishing centers of excellence across all functional areas of management. GIMS aims to create a dynamic outcome-based teaching-learning process and foster an ecosystem that promotes research. GIMS offers a two-year full-time Post Graduate Diploma in Management (PGDM), approved by AICTE, the Ministry of Education, GoI and HLA, UK accredited. The programme focuses on providing **Dual Specialisation**, designed for the holistic development of students, combining modern infrastructure with an advanced teaching-learning ecosystem.

With competent faculty members and innovative training methodologies at its core, GIMS emphasizes experiential learning. The institute collaborates with distinguished trainers such as Mr. Sonu Sharma for comprehensive student grooming. At GIMS, we focus on nurturing students' capabilities by providing expert guidance and continuous support.

LIFE@GIMS

“The greatest leader is not necessarily the one who does the greatest things. He is the one that gets people to do the greatest things.”

INTERNATIONAL COLLABORATION

Learning & Development

TUTELAGE 2.0

The Transformative Training Programme

GIMS partners with India's **leading voice coach, Mr. Sonu Sharma**, to deliver an exclusive, innovative and transformative **training programme** designed to enhance **students' employability** in the modern workplace.

GIMS proudly announces India's first-of-its-kind MoU with Mr. Sonu Sharma to amplify our students' employability skills. His unmatched expertise in training and talent development has driven positive change in countless individuals. Under his guidance, our PGDM students are equipped with the right skills, mindset and confidence to excel in the corporate world.

Get ready to elevate your potential with his expert mentorship, transformative training and AI-powered learning tools.

Learning & Development (L&D) has evolved from being a "nice-to-have" to an essential "must-have," especially in the post-pandemic industry landscape. The demand today is for resilience, agility and versatility in dynamic environments. Additionally, the growing impact of Artificial Intelligence (AI) on business operations has created a strong need for students to understand and adapt to AI-driven solutions.

At GIMS, the L&D department integrates AI-based learning platforms, data-driven assessments and industry-relevant case studies to ensure students stay ahead of technological trends. The focus is on aligning industry requirements with the right attitude, fostering employability and shaping future managers who can harness AI tools for strategic decision-making. Our primary goal is to ensure every student is well-prepared to meet evolving industry expectations and achieve high employability.

CORPORATE MENTORSHIP

The world of education is evolving rapidly to meet modern demands and address longstanding challenges. Traditional methods of teaching need to adapt to today's fast-changing landscape, which is very different from what was required a decade or two ago. The way students grasp knowledge and sustain attention has been transforming for some time now.

One of the most effective and enduring methods to bridge the gap between theory and practice is through Corporate Talks, where students interact directly with industry experts who bring real-time, hands-on experience to the classroom. In management studies, it is particularly important for students to gain first-hand insights into the corporate world. To facilitate this, GIMS offers a structured **Corporate Talk series** divided into three key segments, each focused on developing specific target skills.

The **Chanakya Talk Series** connects students with industry leaders and visionaries, offering valuable perspectives to sharpen competencies and broaden their thinking through expert interactions. The **Prabodhan Talk Series** invites functional area experts to share their real-world experiences, helping students understand practical challenges and solutions in their fields. The **Samreek Talk Series** brings in veterans from the defence forces to instil discipline, resilience and stability, drawing from their deep experience in service of the nation.

Mr. Shubham Dang
Senior Product Manager,
Microsoft

Mr. Ashish Kumar

FOUNDERS FORUM

@INSPIRES

At GIMS, learning goes beyond the classroom. We believe education should be enjoyable and enriching, blending knowledge with real-world experiences. Our campus regularly hosts engaging events—from expert talks and motivational sessions to vibrant cultural celebrations. The Celeb Corner at GIMS, Greater Noida, has welcomed inspiring personalities like Mr. Shubhankar Mishra, Mr. Sonu Sharma and Mr. Gaurav Taneja (Flying Beast), who shared their journeys and insights with students. Adding to the excitement, performances by artists like Pawan Singh make campus life unforgettable. At GIMS, we create an environment where learning, inspiration and celebration go hand in hand.

INTERNATIONAL IMMERSION PROGRAMME (IIP) 2025

Transforming Learning Beyond Borders

**GLOBAL EXPOSURE.
REAL INSIGHTS.
LIMITLESS POSSIBILITIES.**

**9 COUNTRIES
WITH TOP UNIVERSITIES**

From September 1 to 30, 2025, the PGDM 2024-26 batch of GNIOT Institute of Management Studies (GIMS), Greater Noida, embarked on an enriching journey to several countries including Georgia, Abu Dhabi, Dubai, Oman, Singapore, Vietnam, Malaysia, Bahrain and Almaty. This unique experience offered students a truly global perspective on business practices and cultural diversity.

At the heart of the International Immersion Programme were academic sessions conducted at renowned universities across these countries. The sessions covered a broad range of contemporary and industry-relevant topics such as AI in Marketing, AI Versus Human: The Future of HR, Leveraging AI in Business Automation, Blockchain, Fundamentals of Global Trade and International Supply Chain and Logistics Management in a global context.

This programme was designed to expand students' academic horizons while immersing them in the dynamic business environments and rich cultural heritage of multiple countries, preparing them to face the challenges of a rapidly evolving global market. The perfect blend of academic learning, cultural experiences, professional exposure and personal growth made the IIP a memorable and truly transformative journey for every GIMSian.
