● *Nature and Extent of involvement of faculty and students in academic affairs/improvements*

Faculty & students are having effective co-operation in academic activities. Students are always given enough scope to express their view points in academic matters. Students' ideas & views are taken care of by the faculty members after having comprehensive discussion with the Director. Institute also provides online suggestions through Institute digi login or Complaint & Suggestion Box in the Campus to take students feed-back.

● **Mechanism/Norms & Procedure for democratic / good Governance**

All academic and administrative decisions are taken on the basis of meetings held almost regularly with the Directors/Deans and administrative officer of the Institute. Actions taken reports are always monitored in the next meeting and for any discrepancy or deficiency the matter is once again reviewed for the general interest of the institute. The Institute has a high level of delegation of power, whereby the Director organizes and runs their departments with free hand.

● *Student Feedback on Institutional Governance/ faculty performance*

The Institute is in practice for taking student feedback on every end of trimester on the Institutional Governance/Faculty performance through on-line students via digii. The faculty is graded on a scale of 1 to 5 for 1 each attribute. The data is compiled, analyzed and the faculty is briefed accordingly by the Director. In addition, this institute also obtained feedback from other stakeholders such as Alumni, parents and employers at regular intervals. Their suggestions/feedback will be placed before the Governing Body/Academic Council for further development of the Institute.

18. List of Research Projects/ Consultancy Works

Sponsored research plays a vital role in advancing scientific knowledge, fostering innovation, and addressing real-world challenges across various domains. GIMS continuously makes focused efforts to mobilize funds for sponsored research from both Government and private sector agencies. The institute encourages faculty members to undertake research projects that involve extensive primary data collection, fieldwork, industry interaction, and travel. Financial support for such projects is provided partly by the institute, while additional funding is actively sought through industry sponsorships and external funding agencies.

Faculty members at GIMS are actively engaged in research activities that contribute to academic enrichment as well as practical problem-solving. These research initiatives not only strengthen the institute's research ecosystem but also enhance industry relevance and societal impact.

Consultancy Work

● GIMS has a strong pool of expert faculty members specializing in key functional areas such as Marketing, Finance, Operations, Human Resources, and Strategy. With their in-depth domain knowledge and research-driven approach, faculty members offer valuable consultancy services to industry and other organizations. These services include data-driven insights, analytical support, and actionable recommendations tailored to organizational needs.
● Consultancy projects undertaken at GIMS typically follow a structured approach encompassing initial diagnosis, data collection, analysis, strategy formulation, implementation planning, and where required, execution support. Faculty members work closely with corporate teams to understand specific challenges and co-create customized solutions.
● Over the last three years, GIMS faculty have successfully leveraged their academic expertise, research capabilities, and institutional resources to deliver impactful consultancy assignments. These engagements have resulted in innovative solutions and measurable value creation for client organizations, while simultaneously strengthening industry–academia collaboration.
