Navigating New Horizons: Embracing Change and Success

Dear Students,

I would like to extend my sincere congratulations and words of support to you as you set off on your journey into the corporate world. Exploring uncharted territory can be thrilling and intimidating at the same time, but it also presents a chance for development and achievement.

One of the most important aspects of both professional and personal development is embracing change. The capacity to adjust to change and prosper in it is essential in the quickly changing world of today. Remain resilient, inquisitive, and open-minded. Accept obstacles as chances to improve and learn, and don't be scared to push yourself beyond your comfort zone.

Success is more than just getting where you're going; it's also about the path you take to get there. Strive for perfection in all you do, be proactive, and make big plans. However, don't forget to recognize and acknowledge your tiny victories along the way.

Never undervalue the importance of endurance, have faith in your abilities, and be committed to your objectives. You have a bright future ahead of you, and I am sure you will do great things.

Warmest wishes for an upcoming prosperous voyage.

Sincerely,

Mr. Ansh Sharma

President of the GIMS Alumni Association

ALUM OF THE MONTH

May, 2024

Mr. Golu Singh

Batch : 2021-23

1. Can you please share for which company you are currently working and your designation within the same organization?

I am a Project Sales Officer at Kansai Nerolac Paints Ltd., India's Third-Largest Paint Company.

2. How has GIMS played a pivotal role in assisting you in achieving your career goals? Are there any specific experiences or resources from your time at GIMS that you found particularly beneficial?

GIMS provided me with a platform, which further enhanced my talents and gave me an opportunity to apply my abilities.

3. Remembering your time at GIMS, were there any specific challenges or areas where you felt there was a lack of opportunities or resources that you believe could be improved for current students?

Yes, and I can see how the fear of failure could be a significant obstacle. The institute should foster an environment where students are not afraid of failure but are encouraged to do better.

4. Do you have any suggestions for enhancing our academic curriculum? Specifically, which subjects or areas do you think could significantly benefit the juniors in terms of career advancement and skill enhancement?

Practical examinations should be conducted instead of written examinations. Students should be given ground-level experience to understand what their work style and future life will be like after completing the PGDM.

5. What would you like to advise the college to undertake in order to equip the students well for this dynamic professional world?

Before enrolling in any institute, students often harbor a rumor that everything becomes easy after completing a PGDM program. It's important to clarify that after any professional course, including a PGDM, new challenges arise in life. These challenges require a fresh perspective and a great deal of patience to overcome.

6. We are eager to learn more about your corporate journey. Could you walk us through your professional experiences, from your initial career steps to your current role?

In my role as a Project Sales Officer (PSO), I initially faced some challenges as Kanpur was a new territory for me. However, I'm pleased to report that everything is running smoothly now. I currently work with five major government educational institutions in Uttar Pradesh, and my most significant contributions have been with the Kanpur Development Authority (KDA). Within a year, I've successfully brought Kanpur to the second position in project achievement. My goal this time is to make it the number one.

7. As an accomplished professional, what advice would you like to offer to your juniors at GIMS who are embarking on their career journey?

Don't pay heed to any rumors. Recognize your strengths, and increase your decision-making abilities. Believe in your work, and work hard – no one can stop you from being successful. What are the obstacles? They're just tests of your patience and passion
